GENERAL BANKS' ANNIHILATION BILL.

The fact that General Banks had introduced a bill into the United States Congress, making provision for receiving the whole of British North America into the American Union is already known to our readers. A copy of the bill is now before us. It contains 12 clauses, and is rather miscellaneous and complete than we at first supposed. The bill provides that the President of the United States shall, whenever notice shall be deposited in the Department of State that the Government of Great Britain and of all the Provinces and Territories thereto belonging, upon this continent, have accepted the proposition to transfer to the United States, a proclamation establishing such Provinces and Territories as States and Territories of the United States of America. The conditions upon which it proposes to absorb the whole of British North America cannot be characterized as liberal, at least, in so far as the colonies themselves are concerned. In exchange for the public lands, canals, harbors, etc., vested in the Federal Government, it is proposed to assume and discharge the funded debt and contingent liabilities of the late provinces to the extent of \$36,500,000, apportioned amongst the said late provinces, and to make a grant to the same of \$1,410,000, in aid of local expenditures; but as a price for this will be claimed the right to levy import and export duties! Due provision is also made for the representation of the new States and Territories, the Territory of Columbia to enjoy an organization similar to that of Montana. It is proposed that the Federal Government shall, by the construction of new canals, the enlargement of existing ones, and the improvement of navigation, so as to enable ships of 1500 tons burden to pass from the Gulf of the St. Lawrence to Lakes Superior and Michigan, expend \$5,000,000; also, \$2,000,000 for the construction of a continuous line of railway from Bangor, Maine, to St. John's, New Brunswick; also, to aid in the construction of a railway from Trent, in Nova Scotia, to Riviere du Loup, in Canada East, and a railway from the city of Ottawa, via Sudbury, St. Mary, Bayfield, Superior, and through the valley of the North Saskatchewan to some point on the Pacific Ocean north of latitude 49 degrees, granting lands along the lines of said roads to the extent of 20 sections, or 12,800 acres per mile, guaranteeing dividends of five per cent. upon the stock of such railways, provided the guarantee of stock shall not exceed \$30,000 per mile. Also to pay to the Hudson Bay Company, in full discharge of all claims, \$10,000,000. The last clause provides for partial absorption, in the event of any part of the British possessions declining to embrace Uncle Sam. As a set off to what may almost be termed the eagle's jokers perpetrated by Banks, in introducing such a bill, the *St. John Daily Globe* facetiously says that it is in contemplation to introduce a counter resolution into the New Brunswick Legislative Council, to admit the United States of America (so-called) into the Confederated Colonies of British North America, with a provision that Mexico may follow when her people so desire it. The *St. John's Morning Telegraph* goes still further, and says that Mr. Skinner, M. P. P., has actually introduced a bill bearing the following title: "A Bill to establish conditions for the admission of the States of Maine, Massachusetts, New York, Pennsylvania, Maryland, and District of Columbia into the British North American Confederation; and for the organization of territorial Governments for the other States of the American Union."

The British Columbian.

SATURDAY, SEPTEMBER 1, 1866.

THE QUARTZ ERA.

The quartz era is undoubtedly drawing upon this British Columbia of ours. Those acquainted with the history of California will know how important such an era is, and many who have had considerable experience in quartz operations in that State, and who have seen some of the quartz reefs of this Colony admit that present indications and discoveries justify the belief that, in point of richness and extent, the quartz reefs of the latter are quite equal to those of the former. As early as 1863 gold-bearing quartz leads were discovered in the Cariboo district, and since that a number of fresh discoveries have been added to the list. It may be asked, it is asked why it is that these leads, if rich, are not being worked? The reply is simple enough: The absence of capital. To place the requisite machinery on the ground, and open a lead in Cariboo would not cost less than twenty-five thousand dollars—probably a good deal more. The partial test of a lead, such as could be made in the absence of a mill, would hardly justify so large an outlay, hence although several leads have been discovered, samples from which have been sent down and have assayed as high as several thousand dollars to the ton, there is not a quartz mill in Cariboo, or indeed in the Colony, at the present moment. Under these circumstances, although compelled to agree with His Excellency the Administrator of the Government, that it is not the legitimate duty of Government to become a mill owner, by establishing a test mill in Cariboo or anywhere else, yet it is the legitimate and imperative duty of the Government to hold out such inducements as will lead to the immediate establishment of so essential an adjunct for the development of the quartz ledges known to exist in the remote district of Cariboo; and we have no hesitation in saying that no adequate encouragement has yet been given. The offer of \$3,500 as a premium for the establishment of an eighty-horse-power quartz mill with four stamps, is simply a silly burlesque; first, because such a mill would cost probably not less than fifty or sixty thousand dollars; and, secondly, because so much power is altogether superfluous. We believe two-horse-power to each stamp to be the ordinary proportion, consequently a twelve or sixteen-horse-power mill would be all that would be needed as a pioneer mill. For such a mill the Government ought to be willing to offer a premium sufficiently large to insure its immediate erection, even if that premium should cover the cost of the plant! It is a simple question of policy—of business, in fact. The establishment of a test quartz mill would not only enable ledges already discovered to be developed; but it would give an impetus to quartz prospecting the ultimate results of which we will not venture to estimate. We need not say that that result would be an increase of productive labor and employment of capital, which would bring back to the Colonial Treasury a thousand fold more than any material assistance it would be necessary to grant for the purpose of bringing about a consummation so desirable; so that whatever money government may grant now for that purpose may be viewed in the light of seed sown with a moral certainty that it will spring up and produce a thousand fold. Will Mr. Birch say that, as the custos of the public interests, it is not his duty to sow that seed? The thing the miners of Cariboo ask of His Excellency, and which is heartily endorsed, not only by ourselves, but, we confidently believe, by the public generally, for all are deeply interested in this matter, is just as legitimate as, and is probably infinitely more important than, offering premiums for the discovery of alluvial diggings, or the construction of inland steamers or roads. That our quartz leads are not confined to Cariboo recent discoveries prove. We alluded, a few days ago, to the discovery of several quartz leads in the Big Bend country, the specimens from which were largely impregnated with gold. The samples sent down through official channels have just been tested at the Government Assay Office here, with a maximum result of \$3,300 to the ton, the minimum being \$359. This result quite justifies the excitement said to exist in the locality, and leads us to await further development with the deepest interest.

A WANTON MISSTATEMENT.

Our attention has been arrested by a paragraph which appeared in a late number of the Victoria Telegraph, in which it is stated that "The inutility and folly of the British Columbian direct steam contract is unmistakably shown by the fact that during the six months the amount of direct freight to New Westminster did not exceed 300 tons!" Upon reference to Mr. Woodcock, the local agent for the mail steamers, we learn that the amount of "direct" freight brought by these steamers during the first six months exceeds 1000 tons, and that the quantity mentioned by our contemporary has been imported by one firm alone! Is it not disgraceful that a public journalist should seek to make a political point at so gross a sacrifice of truth? But there is another feature which ought not to be lost sight of, in estimating the advantages of the steam subsidy, as a means of freighting direct. We learn from the Custom House that the freight thus brought paid duty on \$111,339, or, in other words, that that was the lowest value of the goods in the market where purchased. The mail steamers made ten trips under the first contract, and the average value of the through freight per trip was \$11,000. These goods, by being imported direct, were laid down here, at the very least, 20 per cent. cheaper than would have been the case had they been subjected to the old, unnecessary Victoria black-mail. Thus it will be seen that, while the colony was paying the steamers \$2,000 a trip for carrying our mails and passengers, and drawing a population from California, the colony was saving \$2,200 a trip in the item of imports alone! For the ten trips the Colony paid \$20,000. By the ten trips the Colony saved \$22,000 upon freight alone, to say nothing of all other advantages, positive and speculative. Under the present contract each trip will cost the Colony \$1,500, and pay the Colony \$2,200 in freight, even assuming that it does not increase. Why, then, do we hear so much croaking from Victoria papers, as well as from the Victoria papering printed at Yale? The answer is simple enough. Victoria doesn't get her toll off what comes direct. But this Colony saves it, though! When will these unpertinent and intermeddling people learn to attend to their own affairs and cease to misrepresent ours?

CODVILLE LANDING!

Important to Packers, Stock Drivers, and the Public in General.

THE Public are respectfully informed that James Codville, of the wide renowned Codville Landing Ranch, is prepared to receive any number of animals and cattle to ranch in winter, on the most liberal terms. Large Reductions from the regular price made in favor of trains. Persons intending wintering their own stock can be accommodated with hay in the stacks, and stables and sheds for their animals, and Houses for themselves, on the most reasonable terms. The Ranch is situated on the opposite side of the Fraser from the mouth of the Salmon, about 64 miles long by 44 wide, is high and dry, no place where animals can mire, well protected from north winds, free from any kind of poison weed, and affords every facility, natural and artificial, for the accommodation of stock. James Codville would also call public attention to the fact that he is prepared to furnish hay at a very reduced price, and in quantities to suit all purchasers. In returning thanks to the Public for past patronage, I am in hopes that the good condition in which I turned out animals on former seasons will secure for me a share of the Public patronage this coming winter. Horse covers, pack saddles, and all riding taken care of, and every satisfaction given for the least possible charge to those who may entrust their stock to me, or order Hay. Important

Important to Business Men in
Victoria, California, Portland,
and Places on the Sound!

The British Columbian.
SATURDAY, SEPTEMBER 1, 1866.

FROM VICTORIA.—The steamer Ester-
prise, Capt. Swanson, arrived from Vic-
toria last evening, bringing freight and
passengers. The Victoria Parliament
has come to another dead-lock with the
Government. The Lower House passed
a bill of supply. The Upper House re-
jected the bill, as a whole, but rejected
the schedule thereto, attaching to it
the right of appropriation. This action
of the House of Commons, and a man-
ifest refusal to accept the bill in its
entirety, remarks: "All the time,
all the money, all the wind expended dur-
ing the session, has been absolutely thrown
away." We think so too.—The Chronicle
of yesterday contains a copy of a memo-
rial from the Municipal Council of New
Westminster upon the question of Union,
to the Secretary of State for the Colon-
ies, together with the accompanying
remarks of the Administrator of the Gov-
ernment. The editor of the paper alluded
to appears to have been violently ex-
cited over the memorial, and indulged
in the most childish epantrapsies, the
act establishing New Westminster as the
capital. The editor of the Evening Tele-
graph is becoming quite Americanized in
his sentiments, probably upon the pre-
sumption that the bill introduced into
Congress by Gen. Banks will take effect.

ANOTHER MOVE.—The group of inco-
petent political demagogues who have, in
an evil hour, succeeded in commencing
a majority in the "Commons" of the
neighboring Colony, have just put the
finishing touch upon the Union bugaboo,
by passing a resolution rescinding that
portion of the celebrated "unconditional
union resolutions," which authorized Her
Majesty's Government to fix the basis.

The reason assigned for this "backing
out" resolution, is that at the time the
"unconditional union resolutions" were
passed the Legislative Assembly of Van-
couver Island had the most implicit faith
in the Imperial Government, a faith
which has been destroyed by the measure
of the terms proposed in the new consti-
tution. The resolution, in fact, amounts
to a vote of want of confidence in the
Queen's Government, and will doubtless
eventuate in its immediate resignation!

The action of the Vancouver legislature
upon the union question, the civil list,
and the head of government took place,
and the change of government took place,
would afford matter for an interesting
book.

THE HOME GUARDS.—The Home Guards
met after drill, on Wednesday evening,
for the purpose of filling the vacancy
occasioned by the death of their late
Lieutenant, (Mr. McKicking). The gen-
eral feeling was in favor of delaying
action for a few weeks, out of respect for
the memory of their departed officer, but
the clause in the constitution bearing
upon the point appearing to offer no op-
tion in the matter, the election was pro-
ceeded with, and the following was the
result: For 1st Lieutenant, John Rob-
son; 2d Lieutenant, Jas. G. McBean;
Ensign, Thos. E. Ladner; 1st Sergeant,
George Black; 2d Sergeant, Robt. Han-
nah; Treasurer, Wm. J. Armstrong.

The meeting was adjourned.

FOR THE NORTHWEST COAST.—The Hud-
son Bay Company's steamer Outer, Cap-
tain Lewis, cleared on Thursday for the North-
west Coast with a trading cargo of 200
tons, import value \$21,890. The Rev.
Mr. Gibbel, and wife, were passengers
by her. Mr. Gibbel has recently arrived
from England for the missionary work at
Metlakatla, to which place he has now
gone. The missionary schooner Caro-
lena is here, and will clear to-day for Met-
lakatla with a cargo of goods for that
mission. The Rev. Arthur Doolan arrived
from Victoria last evening, and will
proceed to his mission by the Carolina.

DIKING SERVICE.—The congregation of
Mary street Wesleyan Methodist Church
will meet with the Presbytery congre-
gation in St. Andrew's Church, Carnar-
von street, to-morrow, at 11 o'clock, a.
m. Both the above congregations will
meet in Mary street Wesleyan Church at
7 o'clock in the evening. These union
services will have a special reference to
the late melancholy accident, and ad-
herents of other churches, as well as the
public generally, are cordially invited to
attend.

FROM YALE.—The steamer Onward,
Capt. Irving, arrived from Yale last
evening. She brought a few passengers
and a local express for Dietz & Nelson,
but no news of special importance.

DISTINGUISHED ARRIVAL.—Amongst the
passengers by the Onward, last evening,
we observed the illustrious editor of the
Tribune, a small Victoria organ, printed
at Yale. He goes to Victoria on finan-
cial business, intimately connected with
the existence of the paper. We under-
stand the editorial department of the
Tribune will be under the management
of a sacerdotal substitute during the tem-
porary absence of the editor.

ment contains European news of Thurs-
day, and Washington news of last even-
ing, which will be read with interest.

EUROPEAN.
PRAGUE, Aug. 28.—The treaty of peace
between Prussia and Austria has been
ratified by the King of Prussia, and is
now on its way to this city for exchange.

MADRID, Aug. 28.—One of the Spanish
frigates succeeded in capturing the Chilean
privateer Tornado off the coast of Spain.

LONDON, Aug. 28, noon.—Consols, 88½
for money; 5-20's, 72.

LIVERPOOL, Aug. 28, noon.—Cotton
dull and declining; middling uplands
quoted at 13½.

FLORENCE, Aug. 28.—Mazzini refuses
to accept amnesty under Victor Emanuel's
proclamation, and declines to be a sub-
ject of the King on any terms, preferring
exile.

The Italian volunteers are being dis-
banded.

VIENNA, Aug. 28.—The Austrian Gov-
ernment has determined to issue bonds
for a loan of fourteen millions florins to
meet extraordinary expenses of the late
war, including twenty million thalers
stipulated to be paid to Prussia.

WASHINGTON, Aug. 28.—The Presi-
dential excursion party started at 7:30
this morning.

NEW YORK, Aug. 28.—The Paris
Times, received by mail, says the Pope
is on the eve of ceding the States of the
Church to Napoleon and assuming for
himself the title of Viceroy.

The Paris Independence Belge says the
concessions which the Mexican Emper-
or asks of Napoleon are, 1st, a prolongation
of the stay of the French troops in Mex-
ico; 2d, the recall of Marshal Bazaine; 3d,
the extension of time for the payment of
the debt due from the Empire to France,
which payment falls due next July.

The Emperress asks that the recall of French
troops be put off until April, 1867, and
that Napoleon furnish a certain number
of French officers to organize a new
Mexican army.

LIVERPOOL, Aug. 29, noon.—An arrival
here reports having seen the Great Eastern
on the 19th.

LONDON, Aug. 29, noon.—Consols op-
ened at 89½ for money; 5-20's at 72½.

The Morning Post says Napoleon has
extended the time for the French evacua-
tion of Mexico until January next.

The Paris correspondent of the Morn-
ing Post states that the Emperress Car-
lotta has so far succeeded in her mission in
behalf of Maximilian as to obtain from the
Emperor of France an extension of time
in which to pay the French Government
the ten million francs for the equipment
of troops in Mexico, and will assist in
such equipments by furnishing material
from French magazines. The Emperress
also obtained from Napoleon an exten-
sion of time until January for the depart-
ure of French troops from Mexico.

PARIS, Aug. 29, evening.—Current
rumors in relation to Mexican matters
are very conflicting. The most probable
reports appear to be that the Emperress
Carlotta will return to Mexico, and that
a French General is to command the Mex-
ican troops organized by Maximilian.

The name of the General is not stated.

LONDON, Aug. 30, evening.—Consols
closed at 89½ for money; 5-20's, 72½.

Bank of England and day reduced the rate
of discount to 6 per cent.

LIVERPOOL, Aug. 30, evening.—Bread-
stuffs flat with downward tendency.

PARIS, Aug. 30, noon.—The belief
grows here that Maximilian will abdicate
the crown of Mexico.

The Debats, in an editorial to-day, al-
ludes to the honors paid the American
Embassy at Russia, and after significant-
ly inquiring as to what is the value of
the demonstration between the United States
and Russia, it says France has done little
to remove old friendship between herself
and the United States.

CONSTANTINOPLE, Aug. 29.—The affairs
of Turkey are in a very bad state. The
revolt in Candia progresses, and the in-
habitants have asserted their independ-
ence of the Turkish Empire. Constanti-
nople is announced in a state of siege.

EASTERN STATES.
NEW YORK, Aug. 29.—The Presi-
dential party arrived, via Jersey City, this
afternoon, and were received by Mayor
Hoffman, the members of the Commu-
nion Council, and the city military. The
Mayor made a brief speech of welcome,
which was briefly responded to. Mayor
Hoffman, in his welcome to the President,
said, "The city of New York, which now
greet you, has never faltered in its devo-
tion to the Union, and never will. It is
the metropolis of the country; when it
speaks it does not speak in whispers, or
utter uncertain sounds. It speaks to-day,
and I trust this great demonstration, in

which capital and labor are both united,
will cheer your heart and strengthen your
hands in the great work of peace
restoration in which you are engaged.

The people are impatient to greet you.
Their actions will speak more eloquently
than mere words." After the address
the Mayor presented the city officials and
citizens, which ceremony continued about
an hour. The procession party, as it
passed Broadway, was a magnificent
ovation. Every available space was oc-
cupied by the assembled thousands.

Boquets were showered down by hun-
dreds. The cheers which greeted General
Grant and Admiral Farragut were espe-
cially noticeable. On arrival at Dela-
noie's the party reviewed a division of
troops. The party started at an early
hour for West Point, riding through Cen-
tral Park, and taking special steam at
Manhattanville.

Money easy; sterling dull and heavy;
government securities firm and quiet.
Business in Wall street almost totally
suspended, owing to the President's
visit.

St. Louis, Aug. 29.—Cemeteries re-
port 92 cholera interments yesterday,
showing a decrease of 13 from the day
before.

CINCINNATI, Aug. 29.—The Board of
Health yesterday in view of the abate-
ment of cholera, resolved they would only
meet once a month hereafter; none of
the sanitary regulations are removed,
however.

WASHINGTON, Aug. 31.—A dispatch
from Lieut-General Sherman, dated Fort
Laramie, says, reports of Indian troubles
on the plains have been greatly exagger-
ated, the telegraph wires not having
been injured, and no party that has been
organized has sustained loss. No small
bands of Indians are roaming about steal-
ing, as represented, and no difficulty is
apprehended.

NEW YORK, Aug. 31.—The Commer-
cial's money article says, the stock mar-
ket is dull, and singularly so, considering
the large speculative interest outstand-
ing. There is no disposition to buy or
sell. Gold is weak.

CALIFORNIA.
SAN FRANCISCO, Aug. 29.—Pacific mail
steamer California arrived from Panama
to-day. A slight earthquake was felt in
this city ten minutes to two o'clock this
morning; there was but a single shock,
quite slight, though distinct.

Private telegrams quote gold scarce in
New York yesterday morning at 1 per
cent. per day, and selling at 149. Le-
gal tenders dull at 11 and 11½.

Arrived, 29th, steamer California, 15
days, 20 hours from Panama. Skilled,
28th, bark Smyrniote, Honolulu, bark
Anglo-Saxon, Melbourne, bark Arcticted,
Puget Sound.

SAN FRANCISCO, Aug. 30.—A private
dispatch, dated New York to-day, quotes
gold 84½; sterling 108, dull; legal ten-
ders 11½.

SAN FRANCISCO, Aug. 30.—Arrived on
the 29th, bark Scotland, 15 days from
Freeport, bark C. D. Evans, 11 days from
Port Madison, British bark Princess
Alice, 74 days from Auckland, N. Z.
Sailed on the 29th, ship Helios, Puget
Sound, ship Amethyst, Bellingham Bay,
bark Gold Hunter, Puget Sound, 30th,
steamer Golden City, Panama; ship Re-
vere, Nanaimo.

MEXICO.
NEW YORK, Aug. 28.—The New York
Times correspondent says indications
point to the speedy downfall of the Em-
pire from Tehantepec, on the Lower
Pacific Coast, to the extreme northern
frontier. Every sea port is closely be-
sieged by outlawed Liberal enemies.

The whole line of the northern frontier
States as far east as Matamoros, on Rio
Grande, and Bagdad at that river's
mouth, is held by Liberals. On the
coast of the Gulf of Mexico the Empire
holds one available seaport; still we are
told even Vera Cruz is kept in a constant
state of alarm by the close proximity of
large Liberal bands. Jalapa, San Luis
Potosi, and Michom are still in an actual
state of siege. The Capital, Puebla and
Orizaba are severely threatened by Gen-
eral Diaz and Figueroa. Marshal Baz-
aine, who started northward with the
intention of engaging Juarez's main army,
and forcing it into the Territory of the
United States, was hurrying back to the rescue
of the Capital. General Negea, com-
mander-in-chief of the Mexican and sur-
rounding departments, will leave for
Puebla the moment Bazaine arrives. The
French army is now powerless. There
are at least one hundred thousand Lib-
erals in the field.

Telegrams of correspondence of over
700 words, from Emperress Carlotta, in
Europe, to Maximilian, passed over the
cable on Sunday, and was forwarded to
Galveston, whence a dispatch boat
would be sent to Vera Cruz.

WASHINGTON TERRITORY.
OLYMPIA, Aug. 29.—The three soldiers
who robbed Mr. Locke's safe at Stella-
com last week were discovered yester-
day afternoon about twenty miles south
of this place on the stage road by Mr.
Colvin, in his barn, where they had slept.
They could give no satisfactory reason
why they were there, and offered him
three U. S. guns for something to eat;
suspecting they were robbers he directed
them to Mr. Tilley's, distant about two
miles. They started in that direction,
and Mr. Colvin saddled a horse and cap-
tured them, hoping to get assistance and
forward them. Just before arriving at Til-

ley's Mr. Colvin met two young men,
Turner and Martin, and made known to
them the facts. The two young men
kept the robbers in sight, and Colvin
reached Tilley's in advance and made
preparation to receive them. Shortly after
they all arrived. The robbers becoming
alarmed started off. Mr. Colvin demand-
ed them to stop, that they were prisoners.
They being unarmed, having left their
guns in Mr. Colvin's barn, made a break
running in different directions. One of
them was shot dead, another wounded in
the shoulder, and all were captured.
Seven hundred dollars in coin of the sto-
len money was recovered. It is reported
that there are two hundred and thirty
dollars in the pockets of the dead man.
The Collector has started to hold an in-
quest. The two surviving robbers arrived
here this afternoon in charge of the
party who captured them, and are safely
lodged in jail.

SAN JUAN ISLAND.
SAN JUAN ISLAND, Aug. 30.—Yester-
day afternoon a canoe, laden with 5 bar-
rels of whisky, was seized by the Ameri-
can military authorities on San Juan Is-
land. The whisky is now in the com-
missary store of the post, and is well
guarded, while the crew, consisting of
one white man, named William Pugh,
and three Indians, are in the guard house
for safe keeping, where they will remain
until their case is settled.

SAN JUAN ISLAND, Aug. 31.—William
Pugh, who was arrested by the military
on San Juan last Wednesday, on a charge
of smuggling, was released this morning.
The whisky is to be confiscated.

OREGON.
PORTLAND, Aug. 29.—The steamer
Fideliter arrived from Victoria on Tues-
day morning.

Weather rainy.

HOLLOWAY'S PILLS.—Nothing pre-
serves the health so well as an occasional
alterative in changes of weather, or when
the nerves are unstrung. These Pills act
admirably on the stomach, liver and kid-
neys, and so thoroughly purify the blood
that they are most efficient in warding
off derangements of the stomach, fever,
diarrhea, dysentery and other maladies,
and giving tone and energy to debilitated
constitutions. All who have the natural
and laudable desire of maintaining their
own and their family's health, cannot be
too keenly to Holloway's Pills, which
will, by their use, regulate and strengthen
these purifying Pills are suitable for all
ages, seasons, climates and constitutions,
when all other means fail. They are the
female's best friend.

TOYS AND FANCY GOODS.—G. C. Clark

THE GRAND PROMOTERS OF HEALTH,
HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance, and restore the normal and natural power to every organ, without inconvenience, pain or any other drawback.

Derangement of the Bowels, Liver and Stomach Complaints.
This medicine is so well known in every part of the world, that the cure effected by it is a wonderful, as to astonish everyone. Its prescriptive use as a remedy for bilious and liver complaints, and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased.

Determination of Blood to the Head.
This is generally occasioned by some irregularity of the stomach and bowels, which, if not timely attended to, frequently terminates fatally. After doses of these famous Pills never fail to give tone to the stomach, regularity to the secretions, and purify the blood. Vertigo, dizziness of sight, and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine.

The Female's Best Friend.
For all debilitating disorders peculiar to the sex and in every contingency perilous to the life of women, youthful or aged, married or single, this mild but speedily acting remedy is recommended with friendly confidence. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.
For all skin diseases, however inveterate, these medicines are a sovereign remedy. While the Pills act upon the blood, which they purify, the Ointment passes through the pores of the skin, and cleanses every structure, as water attracts the soil or as salt penetrates meat. The whole physical machinery is thus renovated, healthy, regular and vigorous.

Coughs, Colds and Asthmas.
No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthma has appeared, these Pills may be relied on as a certain and never-failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

Indigestion—Bilious Headache.
These complaints may sometimes be considered trifling but it should be borne in mind that, by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach, take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual, will be thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague, Female Irregularity, Scrofula, or King's Evil, Fevers of all kinds, Sore Throat, Stone and Gravel, Rheumatism, Secondary Symp- toms, Gout, Head-ache, Tic Douloureux, Indigestion, Inflammation, Ulcers, Venereal Affec- tion, Consumption, Liver Complaints, Dropsy, Rheumatism, Weakness from whatever cause, Retention of Urine, &c., &c.

Sold at the establishment of Professor Holloway, 244, Strand, (near Temple Bar) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 15d., 2s. 6d., 4s. 6d., 11s. 2s., and 3s., each Box.

*There is a considerable saving by taking the large size. N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

CURES AND COMFORT FOR THE BED-RIDDEN
—BY—
HOLLOWAY'S OINTMENT.

This wonderful Ointment acts like magic in relieving and curing all sores, wounds, bad legs, ulcers, and eruptions of the skin; when rubbed on the surface, it pro- duces the most wholesome influence over the internal struc- tures. It heals by cleansing all animal fluids with which it comes in contact, and therefore promotes a sound and permanent cure.

Gout and Rheumatism.
To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fric- tion with warm water the soothing action of this Oint- ment is most remarkable; it secures their cure by in- flammation, ease pain, reduce the swelling, restore the natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are in- fallible specifics.

Diphtheria, Bronchitis, Sore Throats, Coughs and Colds.
This class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief, in all stages of Influenza, Croup and Bronchitis. This treatment may be followed with safety and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scars.
This Ointment is a certain cure for Ringworm, Scars, Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They can- not be treated with a safer or more speedy remedy than Holloway's Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so puri- fy the blood that these disorders are completely eradicated from the system, and a lasting cure obtained.

Dropsical Swelling.
Beware of this dangerous and stealthy complaint, which frequently creeps upon us by slight squelchiness or irri- tating jaundice, of which no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach; therefore, act to work earnestly, by taking Holloway's famous Pills ac- cording to the printed instructions, and rubbing the Ointment very effectively over the pit of the stomach and right side, where these disorders are completely eradicated from the system, and a lasting cure obtained.

Files, Fistulas, and Internal Inflammation.
These complaints are most distressing to both body and mind, false delicacy concealing them from the most in- timate friends. Persons suffer for years from Files and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure with- out the annoyance of explaining their ailment to anyone. The Pills greatly purify the blood, regulate the circulation, remove diseased structures, and invigorate the whole sys- tem.

Disorders of the Kidneys, Stone and Gravel.
Are immediately relieved and ultimately cured if this Ointment be well rubbed, twice a day, into the small of the back, over the region of the kidneys; and if it will gradually penetrate, and in almost every case, give im- mediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs, Chapped hands, Scalds, Bad Breasts, Contracted and Sore Nipples, Burns, Stiff joints, Sore throats, Skin-diseases, Bunions, Elephantiasis, Scrofula, Bites of Mosquitoes, Fistulas, Scars, Cuts, and Sand-Ries, Glandular Swellings, Cocco-bay, Glandular Tumors, Chicago-foot, Ring, Ulcers, Corns (soft), Ingos, Wounds, Cancer, Piles, Yaws, Chills, Rheumatism.

Sold at the establishment of Professor Holloway, 244, Strand, (near Temple Bar) London; and by all respect- able Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 15d., 2s. 6d., 4s. 6d., 11s. 2s., and 3s., each Pot.

*There is a considerable saving by taking the large sizes. N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot.

"Cariboo Sentinel."

THE Undersigned, Proprietors and Publishers of the "CARIBOO SENTINEL," in an- nouncing to their friends and the public that their arrangements have been completed for issuing the first number on or about the first day of May next, would most respectfully solicit a continuance of the patronage and support heretofore bestowed on them.

While intimating their determination of pub- lishing twice, instead of once a week, as for- merly, the undersigned would draw attention to the very efficient postal system now estab- lished throughout British Columbia, which will enable them to forward the SENTINEL to nearly every Mining Camp in the Colony, par- ticularly to the newly discovered Mines on the Columbia, from whence they will be in con- stant receipt of the latest and most reliable intelligence, thus rendering the columns of their paper a most desirable medium of pub- licity for the business public.
